EXAMINER'S AMENDMENT

Applicant's election without traverse of Species A (claims 1 and 3-6) in Paper No. 13 is acknowledged.

This application is in condition for allowance except for the presence of claims 7-11, 16-18, 20 and 21 to an invention and species non-elected without traverse. Accordingly, claims 7-11, 16-18, 20 and 21 have been cancelled.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In the claims

Claims 7-11, 16-18, 20 and 21 have been canceled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

None of the prior art of record discloses or suggests an in-plane switching (IPS) type LCD device having three domains between a first electrode and a second electrode wherein the third domain is intervened between the first domain and the second domain, liquid crystal molecules aligning in the third domain in a second direction forming a second angle with respect to the direction of the electric field within the plane of the liquid crystal layer, and the second angle is larger than the first angle of the liquid crystal molecules aligning in the first and second domains in a first direction with respect to the direction of the electric field within the plane of the liquid crystal layer.

Kondo et al '051, Lee et al and Ham all disclose an in-plane switching (IPS) type LCD device having two domains between a first electrode and a second electrode, not "the third domain is intervened between the first domain and the second domain, liquid crystal molecules aligning in the third domain in a second direction forming a second angle with respect to the direction of the electric field within the plane of the liquid crystal layer, and the second angle is larger than the first angle of the liquid crystal molecules aligning in the first and second domains in a first direction".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
